- Prepare bathroom to receive floor to ceiling tile.
- Removal of all interior bedroom, bathroom and closet doors. To be replaced with new.
- Prepare the floor to receive new vinyl flooring. Ensuring that it is completely leveled throughout.
- Remove all windows and sliding door. Prepare to receive new 6ft sliding door, one 30x50 single window and 30x50 double window in bedroom.
- Prepare kitchen to receive new cabinets. Following layout provided. Kitchen to be supplied and installed by others.
- Prepare kitchen for new layout, this includes channeling for new electrical outlets and stove plug. Also, removing laundry installed in the kitchen.
- All electrical fixtures to be removed for new. Installing new ceiling fan in the living room and bedroom.
- Prepare living room and bedroom to receive ceiling fans.
- All new electrical throughout the unit ensuring it is up to standard with the current Residential Building Code (Section 20.3). Including new electrical panel.
- Prepare all plumbing following the plumbing guidelines below. Please ensure that only qualified plumbers are to carry out plumbing work.

2. Interior Finishes

- Prepare walls and ceilings thoroughly, by approved methods, to receive two (2) coats of paint as per Manufacturer’s specifications. All cracks to be hacked and plastered. All curtain rods, nails, fixtures, shelving tracks to be removed, and surfaces to be repaired. All new surfaces must receive one (1) coat primer sealer (gripper) prior to paint application as per Manufacturer’s specifications.

- Apply two (2) finish coats as per Manufacturer's specifications, walls, and ceilings to be Crisp Linen Semi-Gloss, as supplied by Pembroke Paint, with mold retardant additive.
- Install BHC supplied Vinyl flooring.
- Install BHC supplied PVC baseboards.
- Install BHC supplied ceilings fans throughout (bedroom and living room).
- Install BHC supplied light fixtures in kitchen and bathroom.
- Install BHC supplied faceplates to all receptacles and switches throughout.
- Install BHC supplied closet doors.
- Install BHC supplied bedroom and bathroom doors.
- Install BHC Supplied windows.
- Install BHC Supplied sliding door.

3. Kitchen & Bath

- Install BHC supplied floor and wall tile in the bathroom.
- Install BHC supplied shower manifold (including faceplates, shower head etc. after tile installation).
- Install BHC supplied vanity and basin.
- Install BHC supplied mirror and light (above mirror).
- Install BHC supplied Heat/Light/Vent.
- Install BHC supplied toilet.
- Install BHC supplied shower rod and towel racks.
- Ensure stove plug is 4-prong 220V.
- Install BHC supplied backsplash in the kitchen.

4. Exterior

- Paint exterior where windows and sliding door was replaced.
- Paint porch with non-skid grey porch paint.

5. Fire & Safety

- Install 5lb fire extinguisher in the kitchen.
- Install BHC supplied smoke detectors.

BHC Plumbing guidelines

(June 2020)

Kitchen

- No kitchen sinks are to be reused if the mounting brackets are corroded.
- No single hole faucet installations.
- No under-mount Kitchen sinks are to be used.
- Kitchen sink faucets are to be purchased from plumbing hardware stores only, with the exception of Country cabinets. Masters, Gorhams, and SAL are not included.
- Only chrome P-traps are to be used.
- All plumbing pipes on the face of the wall when replacing kitchen cabinets are to be chopped into the wall to avoid cabinets being cut.

Bathroom

- Bathtub manifolds are to be replaced with a Kohler single lever manifold only. (when need)
- NO, galvanize fitting are to be used on bathtub manifold replacements.
- If the bathroom vanity is to be replaced all surface-mounted pipes are to be put into the wall.
- No S-traps are to be used.
- Only chrome P-traps are to be used.
- Bathroom basin faucets are to be purchased from plumbing hardware stores only, with the exception of Country cabinets. Masters, Gorhams, and SAL are not included.

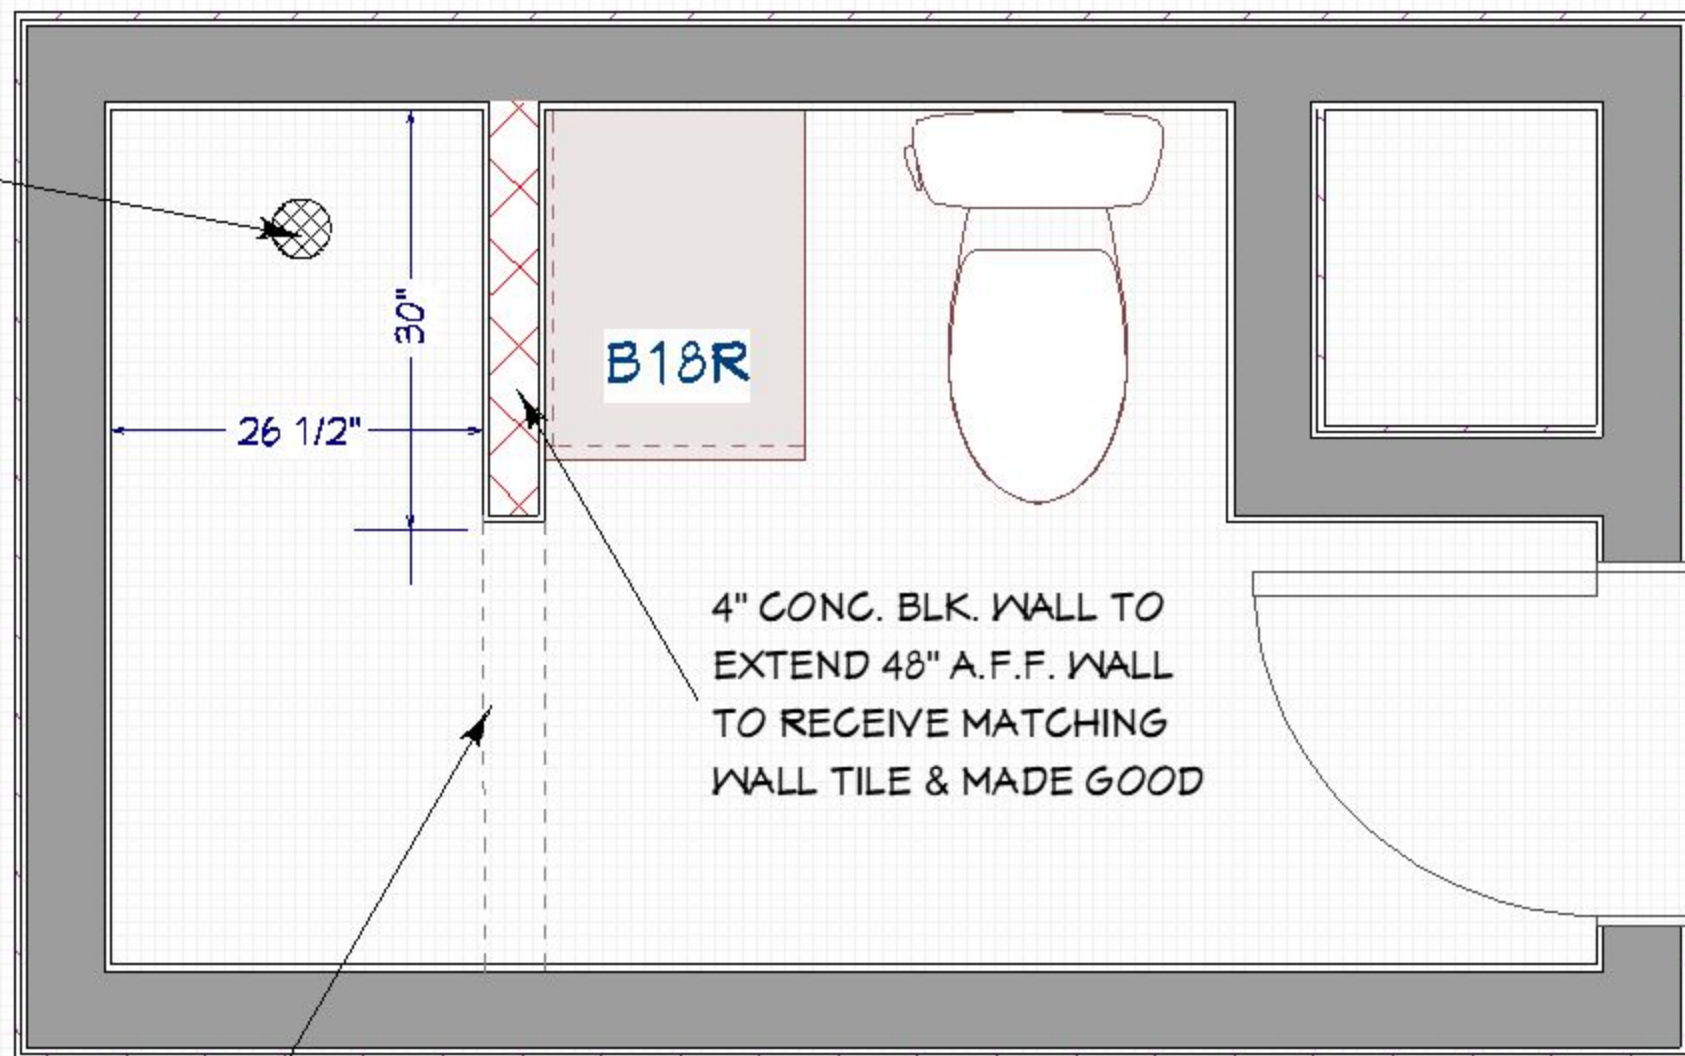

Water heaters

- Water heaters are to be installed in accessible areas only and should be free of any obstruction for future removal.
- All water heaters are to be installed with the front panel accessible and facing forward.
- All relief valves are to be installed facing backward.
- Any 40-gallon water heater that has to be replaced is to be replaced with a 30 gallon. (this is typical at Perimeter Lane)

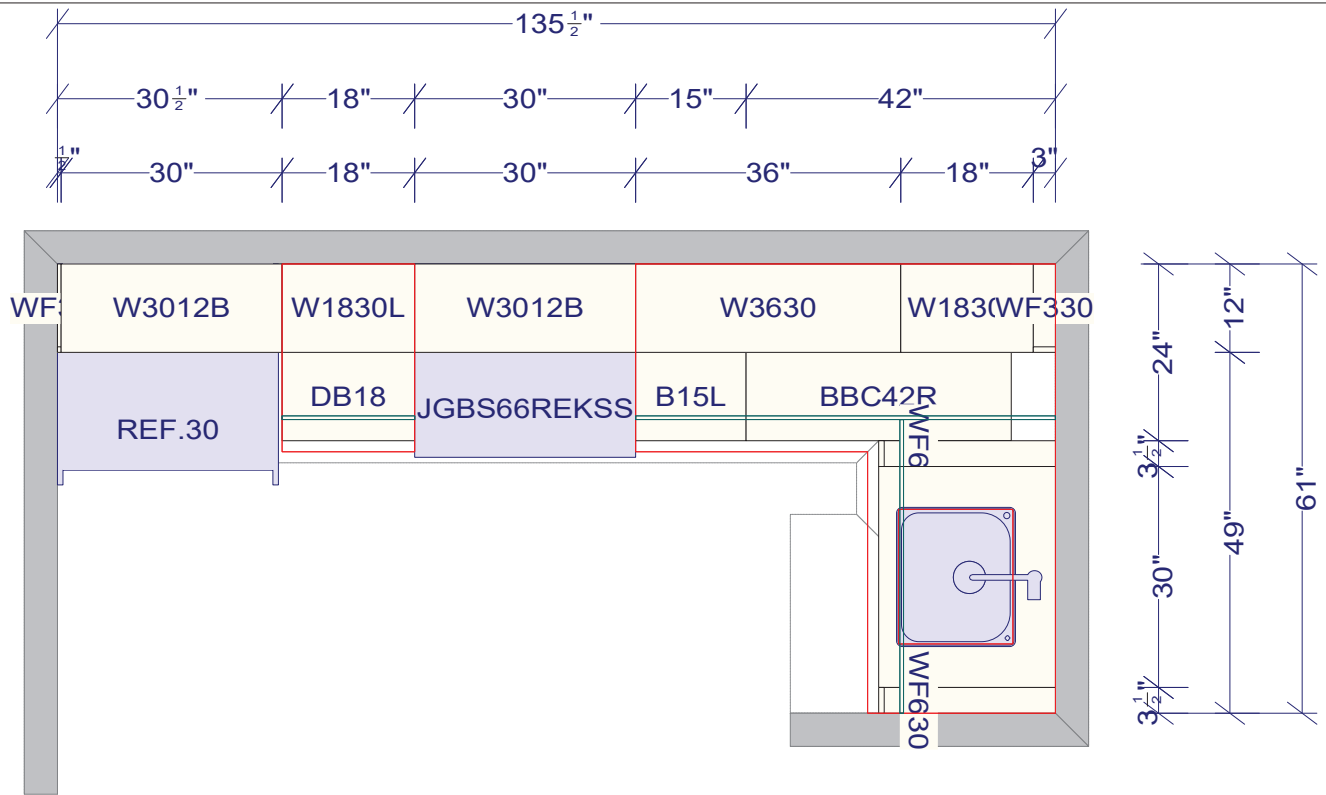

General

- Units that have their own water tank and pump the pressure tanks are to be regulated.
- All flushing water mains in the units at Perimeter lane are to be repiped so that it's calculated through the water meter.
- **Only plumbers are to carry out plumbing works.**
